IPAC-CEO CHAPTER MEETING

October 8, 2014

9:00 am – 12:00 pm

Location: Ross Memorial Hospital - Classroom second floor

10 Angeline Street, N, Lindsay, Ontario

Attendance in person or via OTN event # 38428898

1	Call to Order, Welcome and Introductions	Leanne
	Education session: **How to critically appraise research literature**	Heather Candon Infection Control Consultant PHO
2	Approval of Agenda	members
3	Approval of Previous Meeting Minutes June 25, 2014	members
4	Treasurer's update	Sharon
5	Business Arising 5.1 CIC Chapter Award review of criteria 5.2 Banking changes 5.3 Executive Roles and Responsibilities 5.4	 Denise Sharon Leanne
6	New Business 6.1 IPAC week ideas 6.2 Nov 13th IPAC Ed day 6.3 Ebola preparations 6.4 CIC study question 6.7 6.8	 Members Planning members Members Edie
7	CEICN update	Heather Candon
8	Round Table Discussion-Networking	Members
9	Next Meeting TBD Location TBD	
10	Adjournment	

<u>**Sample CIC questions for discussion**</u>

Review from last meeting:

1) **Match the following with their definition:**

Mean   -point/value where 50% of the values fall below a middle value and 50% of values occur

above the middle value in a series that divides the *ranked* values into 2 equal groups

Median   -value in a set that occurs most frequently

Mode   -mathematical average of the values in a data set, inaccurate if there are outliers

2) The lengths of stay for patient with HAI's are 12, 12, 12, 13, 15, 15, 16, 20 and 30 days. What is the **mean length of stay?**   **What is the median stay?**   **What is the mode?**

A. 12	A. 12	A. 12
B. 15	B. 15	B. 15
C. 16	C. 16	C. 16
D. 25	D. 25	D. 25

Tips to remember which is which—**Median** is the line on the road that divides it in half, so the middle number amongst a ranked set is considered the median-the middle point. When thinking of **Mode** think Mod-popular, it is the most popular number; the number that repeats the most. **Mean** is the average we've just got to remember that one!

3) **Education and Research question:**

You are an ICP at a facility that has seen significant increase in SSI's, as part of your assessment you need to determine the educational needs of the operating room staff related to infection prevention and control and you plan to implement an educational offering. Based on your knowledge of adult learners:

In planning the education you are aware that the primary goal of the educational process is:

a. A positive experience for the learner
b. That learning will take place
c. Improved work performance
d. Decreased infections

Welcome to the world of CIC! All answers could be answered as correct but, you have to figure out how THEY think! Only one answer is right….
